

ABOVE BOARD AMENITIES

AquaTread®, by Better Life Technology, is the leading ultra-durable, seamless, UV-stable vinyl marine flooring for recreational boats. Our flooring is made in the USA of solid, premium, seamless vinyl. Water can't permeate above or below, offering unrivaled performance and value. AquaTread doesn't crack, peel, snag, rot, mold, mildew, or deteriorate under heavy use or foot traffic. AquaTread comes in beautiful colors, high-end patterns or custom designs to complement any existing boat finishes. High quality images are protected by a cooler, slip-resistant, marine grade top coat for long-term color retention, stain-resistance and easier cleaning. Our lay-flat, trim to fit boat flooring has cushiony spun bound backing for simple installation. Make waves with AquaTread.

AquaTread's three stunning flooring Collections are influenced by both the water and the shore. From cool neutrals with a leathery finish to popular coastal textures to fine teak and authentic wood looks, AquaTread has every boat covered.

Boaters love AquaTread's ease of maintenance, safety features and so much more. They'll enjoy extra time in the sun and on the water taking in the beauty of their boat and surroundings without the worry of deck deterioration and flooring damage.

MicroLock Technology™

Where durability meets beauty

Improved marine grade top coat specifically designed for harsh environments

- Seals surface for easy clean up
- Reduces staining
- Reduced blushing formula
- Improved UV resistance
- Heat reduction qualities
- **Keeps floor looking like new for years to come**

Superb Moisture Protection

Seamless and impermeable solid polyvinyl with improved marine grade top coat; water cannot penetrate from above or below.

UV Stable

Protects from harmful sun rays; advanced UV inhibitor holds color even longer.

Quick and Easy Clean up

Non-porous surface allows for easy cleanup of salts, fishing scents, oils, and gas and can even withstand power washing!

Cool To Touch

Even after hours in full sun, your flooring will remain the coolest in the industry.

Snag Resistant

Non-woven polyvinyl isn't harmed by fish hooks, pet nails or other sharp objects.

Indentation Resistance

Resists heavy items such as anchors, coolers, etc.; won't crack, tear or split.

Health and Safety

Meets slip-resistance standards; flame retardant; spun bound backing for cushioning underfoot.

Manufactured in the USA

Purposefully-engineered of premium polyvinyl for superior style, durability, performance and value.

Premier

Achieve timeless elegance without the expense and maintenance of real wood with AquaTread's Premier Collection of faux teak and other stylish light, dark and weathered grains and patterns. Unlike wood, AquaTread resists water, UV-rays, stains, odors, scratching, blushing and more.

PERFORMANCE

AquaTread is a durable, waterproof, 100% polyvinyl boat flooring that is UV- stable for long-term sun exposure and excellent color retention. OEMs and refurbishers worldwide choose AquaTread for its seamless, slip-resistant, flame retardant, easy to install, and low-maintenance qualities. American-made AquaTread is the most durable boat flooring and the #1 pontoon boat flooring because of its performance and longevity under harsh marine conditions.

DESIGN

A variety of patterns and colors have been meticulously designed to create stunning, faux wood and woven images with the sharpest print quality available for the marine flooring market without incurring the expense of natural materials. AquaTread comes in standard widths of 8ft 6in, and custom lengths up to 75 feet with spun bound backing, and in 45 mil and 75 mil thickness depending on the Collection line. AquaTread floors stand out.

DURABILITY

Marine grade top coat helps floors look like new for years. Our images are embedded in UV-resistant polyvinyl, not on top, so the patterns cannot be scratched off or damaged by heavy traffic, anchors, fish hooks, etc., unlike other thinner, less expensive materials on the market. The seamless and impermeable solid vinyl is resistant to oils, gas, chemicals, fishing scents and more, for easy cleaning. AquaTread also has a spun bound backing offering superb moisture protection against rot, mold and mildew, as water cannot penetrate from above or below the deck. AquaTread offers unparalleled value.
